Simple Troubleshooting Guide **41**

Before You Start

IMPORTANT SAFEGUARDS About this manual

- 1 Be sure to connect the color coded leads according to the diagram. Incorrect connections may cause the unit to malfunction or damage the vehicle's electrical system.
- 2 Be sure to connect the speaker (-) leads to the speaker (-) terminal. Never connect the left and right channel speaker cables each other or to the vehicle body.
- 3 Make sure all the connections are completely correct before turning on your unit.
- 4 When replacing the fuse(s), the replacement must be of the same amperage as shown on the fuse holder.
- 5 Do not block vents or radiator panels. Blocking them will cause heat to build up inside and may result in fire.
- 6 To lest the driver distract his attention from, please install the unit in an apt place.
- 7 Using the unit after starting the engine, otherwise the unit can not be started, because the electric energy of battery was used up.
- 8 The unit must be screened from direct sunlight, or the electric energy of battery will be wasting for the high temperature.
- 9 Do not use the unit in extreme high temperature or such low temperature conditions, and also avoid humidity and direct sunlight.
- 10 Take care of the magnetism of the unit. Do no put the credit card, cassette or watch around the unit, or they would be broken or some information in them lose.
- 11 To lest disturb the video frequency, keep far away from the unit when using your phone.
- 12 Do not put the remote control under high temperature or where the sun strikes it, or else the control remote can not work normally.

This unit features a number of sophisticated functions ensuring superior operation. All the functions have been designed for the easiest possible use, but many are not self-explanatory. This manual will help you understand the functions and operations of the unit. This manual main explains **remote control operation**. However, in addition to those functions related with DVD/VCD/CD/MP3 operation that can only be operated by the remote control, there are also functions can be operated by the buttons provided for the main unit.

Tuner

Listening to the radio

- ① **Band Indicator**
Shows which band the radio is tuned to.
- ② **Preset Number Indicator**
Shows what preset has been selected.
- ③ **Frequency Indicator**
Shows which frequency the tuner is tuned.
- ④ **EQ Indicator**
Shows the EQ Setting of the radio.
- ⑤ **MBP Indicator**
Shows that MBP is on or off.
- ⑥ **The 6 stations of the current band.**
- ⑦ **To show the current channel is MONO or STEREO.**

Band Selector

Maintenance

Replacing the Fuse

Make sure the amperage matches the specified value when replacing the fuses. If the fuse is blown, check the power connection and replace with a new one. If the same problem occurs, it would be subjected to the malfunction in-house. In such cases, please consult the nearest service dealer.

⚠ Warning

Never use the fuse with the rated amperage more than that supplied to your unit, otherwise it will damage the unit.

Replacing the Battery

When the range of the operation of the card remote control becomes short or no functions while operating. Replace the lithium battery with a new button cell (CR2025). Make sure the battery polarity before replace.

Gently pull out the Battery Holder while pressing the Stopper.

Put the button-type battery with mark(+) upward into the Battery Holder.

Insert the Battery Holder into the Remote Control.

Precautions on Using Lithium Battery

Always keep the lithium battery beyond children's reach. In case swallowed, see a doctor immediately.

Cleaning the battery with a dry cloth, to ensure its perfect connected.

Make sure the proper polarity when loading with the battery.

To prevent short circuit, do not use metal tweezer to clip the battery.

⚠ Warning!

Improperly handling the battery may result in hazardous explosion. It cannot be charged, disassembled or thrown into a fire.

Pause the Playback

During VCD/CD playback, press **17** **II** to switch between play and stop.

■ Note:

* This function is operated by using the remote control.

Skip backward/forward/F.F /F.REW the playback

Press **20** (**◀** or **▶**) on remote control to perform fast reward or fast forward.

■ Note:

* Pressing **◀** and **▶** on the head unit perform the same function.

System Switch

During VCD/CD mode, Press **11** **P/N** on remote control to set the TV standard to PAL or NTSC or AUTO system.

■ Note:

* The function is only valid on remote control.

Slow motion playback

During VCD mode, press **16** **III** to slow forward. There are 3 speeds as follow:.

■ Note:

* The function is only valid on remote control.

Increase the size of the picture

During VCD mode, Press **9** **ZOOM** to increase the picture in size. There are 3 sizes.

■ Note:

* The function is only valid on remote control.

On Screen Display

During VCD/CD status, repeatedly press **8** **OSD** button on the card remote control, the display as follow:

Press and hold **9** **OSD** to display the current setup.

■ Note:

* The function is only valid on remote control.

Playing a VCD/CD

Insert a VCD/CD disc into the slot, the unit will automatically switch on, if a MP3 disc is loaded, press SRC to start the playback.

Note:

- * You can eject a VCD/CD disc by pressing ▲ on the base or ▲ on the remote control.

Selecting Tracks Fast

During VCD/CD playback, firstly press ②⓫ to replay the current track, press ②⓫ again to play the backward track, Press ②⓭ to play next track.

Note:

- * Pressing ▲ and ▼ button on the head unit also performs the same operation.

Repeat Playing

During VCD/CD playback, repeatedly press ⑮ **RPT** to perform replaying function, the order is:

Note:

- * This function is operated by using the remote control.

Playing Tracks at Random

During VCD/CD playback, pressing ⑮ **RDM** button on the remote control to play any track at random under the directory which you select. Press it again to return to normal playing.

Note:

- * This function is operated by using the remote control.

Number Buttons

Press one of ⑮ **Number Buttons**(0~9) to select a track, press ENTER to play immediately, or it will be played automatically after 5 seconds.

Note:

- * This function is operated by using the remote control.

Stop Playing

During VCD/CD playback, firstly Press ⑮ **■** button to stop playing, press ⑮ to replay.

Note:

- * Pressing ENTER on the head unit also performs the same function.

Reset the Unit

Operating the unit for the first time or after replacing the car battery, you must reset the unit.

Remove the front panel at first, and then Press (8) **RESET** button on the base with a pointed object, (such as a ballpoint pen) to set the unit to initial status.

■ Notes:

- * When some errors occur on the display, you can also press **RESET** button to resume to normal, and it will erase the clock setting and some memorized functions.
- * This function can only be operated by the head unit.

Turning the Unit On/Off

Press (1) **PWR** button to turn on the unit, hold and press it to turn off the unit.

■ Note:

- * Pressing PWR button on the head unit also performs the same operation.

Volume Control

Press (14) **VOL+** button to increase the sound level and press (14) **VOL-** button to decrease the sound level.

■ Note:

- * Pressing +/- button on the head unit also performs the same operation.

Changing Widescreen Mode

Press (9) **WID** button to select the wide-screen mode: 16:9 or 4:3.

■ Note:

- * This function can only be operated by the head unit.

Setting the Sound Characteristics

Repeatedly press (14) **SEL** button to select the desired mode in the following order:

After selecting the desired mode, you can adjust the current level by pressing (14) **VOL** buttons.

■ Notes:

- * Pressing +/- button on the head unit also performs the same operation.
- * The function of **SEL/VOL+/VOL-** on remote control is the same as the corresponding button on the head unit, respectively.

EQ Setting

While listening to the popular music, classic music or rock music, you can select the corresponding preset modes to adjust the sound quality perfectly by using (26) **EQ** button.

Repeatedly pressing (26) **EQ** button to choose the following modes in turn:

The default setting is OFF.

■ Note:

- * Pressing EQ button on the head unit also performs the same operation.

Common Operation

DVD

Turning Loudness On/Off /My Best Position(MBP)

Briefly press **LOUD** button activate loud function. You can press this button to increase the low frequency, which can improve sensitivity for your ears. Press it again to quit this function.

Note:

- * Pressing LOU or Main Menu Setup on the head unit also performs the same operation.

Eject a Disc

Press and hold **EJ** button, eject or insert a disc when the TFT slanted. Press it again, the TFT will return to the initial status.

Note:

- * Pressing **▲** on the remote control performs the same function.

Angle Setting

Hold and press **SEL** button until the **ANGLE** appears on LCD, Press **+** to adjust monitor backward by definite angle, press **-** to adjust it forward.

Notes:

- * when adjusting the monitor angle, please press this button, or the monitor would be broken.
- * Pressing **(VOL+/VOL-/SEL)** on remote control also perform the same function.

Mute Function

Press **MUTE** button to shut off the sound output. And “**⏸**” appears on the LCD. Press it again to resume to previous volume level.

Note:

- * Pressing MUTE on the head unit also performs the same operation.

Clear
